

Fuji Xerox 4112/4127 Copier/Printer

Your choice to do more
and finish first!

Introduction

Fast, Flexible and Easy. Our 4112/4127 Copier/Printer is here to help you grow your business. You can use it to expand your offerings to your customers, to build your customer base and to boost your revenues. It puts a broad range of features and capabilities right at your fingertips. All, offer you new opportunities to produce innovative, more complex, diverse and professional output quickly, flexibly and in higher volumes, including applications targeted at customers in specific industries.

Right at your point of need, our copier/printer offers you:

- High print speeds, up to 125 pages per minute (ppm) – one of the fastest in its class – as well as a highly productive 110 ipm.
- High-performance copying/scanning at up to 100 simplex/duplex images per minute (ipm).
- Your choice of two powerful servers designed to meet your individual needs, including our advanced, feature-rich Integrated Controller.
- Exceptional productivity so you can do more within a shorter print window.
- Ease of use – everyone can be comfortable using this copier/printer.

- Outstanding image quality and output with excellent registration.
- A robust set of in-line finishing options to expand your applications capabilities.
- Multiple feeding and paper-handling options to boost both your productivity and your ability to produce attention-getting output.
- Proven reliability.
- Conveniently small footprint and high-value pricing.

Innovative production solutions to ensure a greener today and tomorrow.

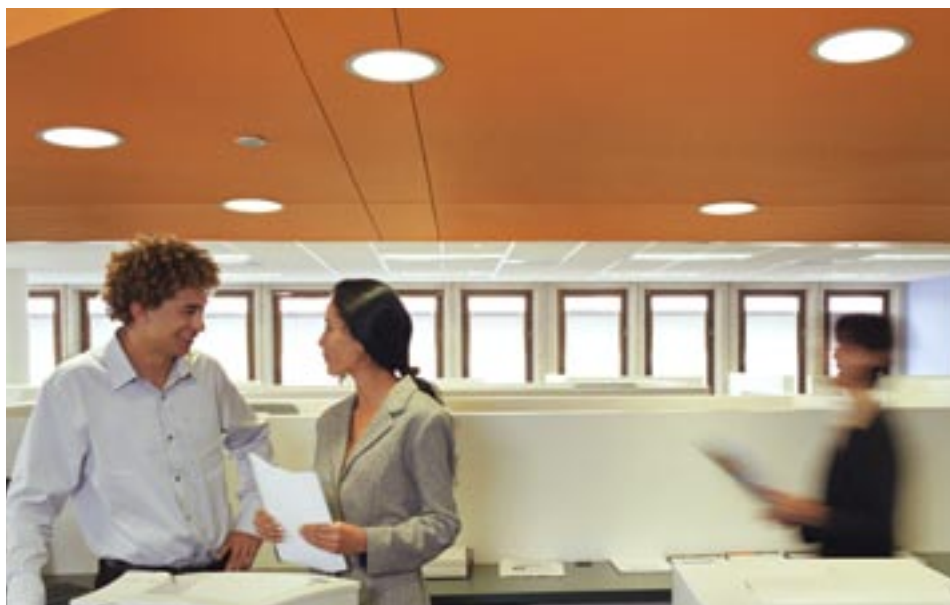

For more information about our commitment to environmental sustainability please visit www.fujixerox.com.au/sustainability/

Innovative EA Toner technology plays a key role in our copier/printer's high imaging quality:

- It enables finer lines for the highest levels of detailing, sharp text, halftones and deep solid blacks.
- EA Toner renders even the most difficult line work, razor sharp.
- Higher rated toner yields let you undertake longer print runs with less operator intervention.
- Longer photoconductor life and lower toner requirements per page contribute to environmental friendliness.

Speed and Productivity, Image Quality and Ease of Use

Do you want to meet tight deadlines? Take on more jobs and get them out the door faster? Create high quality output easily? Make the most of your investment. The 4112/4127 Copier/Printer's exceptional speed and productivity, image quality and ease of use put these goals and more within your reach.

Speed and Productivity

Our copier/printer runs fast so you don't have to

These speed and productivity advantages make the most of every minute to assist you achieve an excellent return on your investment:

- High-speed print engines deliver output up to 125 and 110 pages per minute.
- Single-pass, dual head scanner scans up to 100 images per minute for both single – and double-sided originals – you'll spend less time waiting at the copier.
- Concurrent scan/receive, RIP and print processing provide maximum throughput.
- A 250-sheet document handler ensures that large or complex jobs go faster and easier.

- Complete complex jobs, no manual collation required, with the easy Job Build feature.
- Convert hard copy pages to electronic files in TIFF, JPEG, PDF formats that you can store in folders for fast reprint or send directly to an FTP location or an email distribution list.
- Full-colour scan capabilities mean you can communicate in full colour via email or digital file distribution (JPEG, TIFF, PDF) for fast, inexpensive communication – without the high cost of full colour prints.

Image Quality

It makes you look good

We know you expect excellent image quality for all of your output, whether it is for internal use in your business or for your customers' eyes. Our copier/printer delivers consistent, high-quality reproduction of text, solids and images and exceptional registration for polished, professional output with:

- 2400 x 2400 dpi resolution.
- 600 x 600 dpi with 8-bit gray (256 shades) scan resolution.

Ease of Use

So simple to operate

Everyone from walk-up and casual users to experienced operators will feel comfortable using our copier/printer:

- Straightforward graphic user interface (GUI) is rich in accessible features.
 - Full colour touch screen lets you quickly make your selections with intuitively placed buttons.
 - Most commonly used functions appear on main screen.
 - Look and feel matches your other Fuji Xerox copiers and printers, reducing learning curve.
 - Supports multiple languages, including Traditional & Simplified Chinese, Hangul and English
 - Minimal effort programming of sophisticated jobs.
- Load-while-run, unload-while-run and change-while-run capabilities mean you can load paper, unload finished documents, or change toner cartridges while the copier/printer is running. This ensures more continuous operation and higher productivity.
- With multiple scan-to destination options, you can scan and save or scan and send documents in one easy step. Only one step is needed because the system uses Job Flow sheets to automatically email or distribute jobs to designated locations.
- Engineering Replaceable Units (ERUs) make it easy for service technicians to replace key components, like photo-receptors, for efficient maintenance and more uptime.
- Accepts any data stream, anytime, including Adobe® PostScript®, PDF, PCL, LCDS, IPDS, VIPP and PPML.
- Small footprint means you can place our copier/printer conveniently close to users.

Feeding and Finishing

Like You, It Does It All

You can create a wide variety of applications that speak to the requirements of many industries with our copier/printer. It offers a combination of powerful media and feeding and finishing capabilities to ensure you can produce dynamic applications – right at your point of need – that will answer your internal requirements, appeal to your customers, and drive new business and revenues your way.

You can make the most of your applications by choosing from a broad range of stocks in an array of weights and sizes, including approved coated stocks.

Feeding and paper handling highlights include:

- Enjoy increased productivity with uninterrupted long runs by adding an optional high capacity feeder or oversized high capacity feeder to accommodate your standard, oversize and custom stock requirements.
- Attract attention and maximise the impact of your high-value documents by adding full-colour covers or inserts (up to 200 sheets) via the standard post-process inserter.
- Run multiple sizes and weights of up to 250 sheets with bypass tray.

Robust in-line finishing options further expand your on-the-spot applications capabilities, for example:

- Collating helps you quickly organise your jobs.
- Variable length stapling (up to 100 sheets) – 24 stapler choices yield top-quality stapled sets.
- Hole punching – 2 and 4 – saves time and costs.

- Bi-folding, C-folding, Z-folding and engineering Z-folding (tabloid folded to fit into letter document sets) saves time and enhances your productivity.
- Booklet Maker Finisher delivers large booklets – up to 25 sheets (100 imposed pages) – and offers excellent handling of Fuji Xerox approved coated stocks. With saddle-stitch and bi-fold capabilities, it is ideal for booklets and calendars. The user interface on the booklet maker provides easy communication with the operator to keep your jobs moving along.
- Interface Module acts as a “communications hub” whenever you elect to have more than one finisher connected to the 4112 /4127 Copier/Printer. It enables essential functions such as media cooling, decurling and finisher module communications.
- High-capacity Stacker neatly stacks up to 5,000 A4-size sheets. Removable stacker cart included for easy transport and unloading. This stacker can handle even your largest jobs.

Reliability

Fuji Xerox Service: All the support you'll need

You can rely on our world-class service to support you in many capacities:

1. Call our CustomerCare Centre for support assistance. Speak to our local representative for 24/7 support.
2. prInteract™ Remote Service is available through a protected, online connection between Fuji Xerox support centre and your FreeFlow Print Server. Using this connection, we can respond to your service needs, enabling us to:
 - Easily access equipment data to provide real-time recommendations and help optimise overall performance.
 - Automatically generate up-to-the day accurate meter reads.

Fuji Xerox Paper and Specialty Media

See the difference quality makes

Our digitally optimised papers and specialty media products have been specifically engineered in concert with the Fuji Xerox 4112/4127 Copier/Printer to provide you with superior productivity, reliability and flexibility. Choose from a broad selection of paper and specialty media, in a full range of weights and sizes, to create a variety of print applications and finished documents.

Configurations

- 1** 100 ipm dual-bar scanner (100 ipm simplex and duplex) 250 sheets handler capacity
- 2** 200 sheets standard post process inserter
- 3** 2-tray high capacity feeder (2,000 sheets A4 size each)
- 4** Up to 1200 x 1200 dpi RIP resolution and up to 2400 x 2400 dpi resolution with half-tone screen 106 dpi (default) or 150 lpi (high quality mode)
- 5** Optional folder C-fold, Z-fold, engineering Z-fold
- 6** Booklet maker finisher 2000 sheets, 3-position variable length stapler Hole punch 500 sheets top tray 25 sheets booklet maker (100 pages)
- 7** 1100 sheets A4 size tray
- 8** 1600 sheets A4 size tray
- 9** 2550 sheets trays standard and custom sizes to SRA3 (330mm x 488mm)
- 10** Interface module
- 11** High capacity stacker (5,000 sheets A4 size)
- 12** 250 sheets bypass tray

Feeding Options

Oversized high capacity feeder (2,000 sheets up to SRA3)

2-tray high capacity feeder (2,000 sheets A4 size each)

Interface module and high capacity stacker (5,000 sheets A4 size)

Standard finisher with optional C-Z folder

Booklet maker finisher with optional C-Z Folder

Finishing Options Tailored for Your Business Needs

Choice of Print Servers

Integrated Copy/Print Server

Integrated Copy/Print Server

You'll get a simple workflow with an easy-to-use touch screen, FreeFlow functionality, excellent features and a small footprint:

- **Copy and Save Mode.** Select "copy and save" on the touch screen and, as you copy, document images and settings are saved to a mailbox/folder on the internal server.
- **Thumbnail Preview.** See a thumbnail view of your copy/scan job right at the touch screen. Allows you to merge jobs and delete unwanted pages.
- **External Access Kit.** This software platform enables you to shape our copier/printer to fit the way you work. Using standard web-based tools, your developers can quickly

build and access applications that can be customised for the user interface.

- **Security.** A large set of security features is packed into one compact device, including data encryption/overwrite capabilities.
- **Bates Stamping.** Built-in Bates Stamping feature generates copies with customised alpha-numeric descriptors on each page.
- You can now copy originals and get a stack of uncollated copies with separators for efficient distribution. Added benefit includes the ability to staple and hole punch these copies.
- The integrated copy/print server supports our powerful FreeFlow Digital Workflow features.

Optional Fuji Xerox FreeFlow Print Server

You'll get unmatched power and synergy across our entire monochrome, colour and highlight colour portfolio on top of a superior feature set:

- **Process Speed and Capacity.** Simultaneously receive, RIP, and print several jobs at once or one long streaming job.
- **Familiar Graphic User Interface.** Minimises training and learning curves and maximises agility.
- **Submit Jobs from Anywhere.** For example, desktop applications, host-based channel connections, the Web, CD-ROMs, portable USB devices and optional FreeFlow Suite components.
- **Scalability.** You begin with production power and a familiar workflow at a great price, add only those feature licenses that you need to meet your application requirements.
- **Automated Job Ticketing and**

Customised Job Workflows. Queues and hot folders let you streamline your workflow with minimal operator intervention.

- **Keyboard, Monitor and Mouse.** They're standard so you have out-of-the-box productivity.
- **Print What You Want, When You Want and Where You Want.** Native acceptance of most transaction data streams, including IPDS, LCDS and VIPP.
- **Remotely Manage Jobs and Administration Tasks.** For one device or a fleet of monochrome, colour and highlight colour devices.
- **Strong Security.** Provided via UNIX-based platform and flexible control to define settings for users and groups.

Engineering Z-Fold

Our copier/printer lets you do more. You'll have the capabilities you need to create an array of in-demand applications today – and to develop innovative and business-generating applications in the future. Here are some examples of the types of applications you can easily create and the businesses you can serve with our copier/printer.

Quick, Franchise or Enterprise/In-plant Printers

Applications include complex jobs, manuals, collaterals, newsletters, forms.

- Produce the high-quality output your customers demand.
- Better enables the meeting of aggressive turnaround times.
- Offer more applications and services with Full Colour Scanning capability.
- Offer personalisation using one-to-one software.
- Supports Fuji Xerox approved coated/extra-heavyweight media*.

Legal, Insurance and Healthcare

Typical applications include discovery & case management documents, schedules, forms and newsletters.

- Built-in Bates Stamping lets you generate copies with customised 16-digit alphanumeric descriptors on each page.
- Achieve consistently high productivity with high speed.
- Easy document management.
- Increase productivity when you work with Document Processing, Archiving and Stamping software.
- Communicate faster and more effectively via scan to email.
- See professional results with in-line finishing.
- Flexibility to create both office publications and transactional print documents.

Education

Applications include teacher curriculum materials, workbooks, student directories, coursepacks, yearbooks.

- Teachers and others can create uncollated sets with slip sheets for classroom handouts; sets can be finished with hole-punch or staple.
- Fast copy speed and broad media capacity give teachers and assistants more time in the classroom.
- Create envelope-ready correspondence using the folder.
- Achieve better, more effective communications with full-colour scanning and scan-to-email capabilities.

Service Bureau, Data Centre or Distributed Print

Applications include statements, bills, schedules.

- The optional FreeFlow Print Server delivers native transaction (IPDS/LCDS) publishing and personalised data stream printing support.
- High reliability assists you to meet tight deadlines.
- Create high-value, high-impact applications on the spot using colour insertion, personalisation, and in-line finishing.

Office Workgroup

Applications include newsletters, handouts, presentations, reports, correspondence.

- Ease of use ensures copying, scanning and printing are no-stress activities for everyone in your environment.
- Expandable media capacity, more pick points, and in-line hole-punch, stapling, folding and booklet-making options reduce labour requirements and ensure consistent results.
- Security features protect your data; copy, scan and print data can be encrypted or overwritten to assist you to meet your corporate security standards.

Fuji Xerox 4112/4127 Copier/Printer specifications

Print engines

- Xerographic Engine
- Print Speeds
 - 110/125 ppm (A4)
 - 55/62 ppm (A3)
- First Copy Out Time: 3.5 seconds
- Simplex or duplex printing
- Up to 1200 x 1200 dpi RIP resolution and up to 2400 x 2400 dpi resolution with halftone screen 106 lpi (default) or 150 lpi (high quality mode)
- Front to back registration +/- 0.77mm (customer adjustable)

Document storage

- 80 GB Hard Drive with 14.9 GB for document storage

Scanner/Document handler

- Dual Head Scanner
- 100 ipm black and white scanning, simplex/duplex
- Optical 600 x 600 dpi 8-bit Gray (256 shades) scan resolution
- Scans in industry standard PDF, JPEG, TIFF or multi-page TIFF
- Scan to Email with Mail Delivery Notification
- Supports LDAP
- Scan to Network File Server
- 250 sheet Duplex Automatic Document Feeder
- Throughput sizes: A5 to A3
- Throughput weights:
 - Simplex: 38 gsm to 200 gsm
 - Duplex Colour Scan: 50 gsm to 200 gsm
 - Optional PDF Scan Kit

Paper handling

- Stock weights and capacity (at 80 gsm):
- Tray 1: 1,100 sheets (A4); 52 gsm Bond to 216 gsm Cover
- Tray 2: 1,600 sheets (A4); 52 gsm Bond to 216 gsm Cover
- Tray 3-4: 550 sheets each 140mm x 182mm to; 330mm x 488mm (A5 to SRA3/13.0" x 19.2"); 52 gsm Bond to 216 gsm Cover
- Tray 5 Bypass Tray: 250 sheets (102mm x 152mm) to (330mm x 488mm); 52 gsm Bond to 253 gsm Index
- Standard Post Process Inserter: Inserts pre-printed offset or digital colour documents in a post fuser manner; 200 sheets (A4 to A3; 52 gsm Bond to 220 gsm Cover)

- Optional High Capacity Feeder: 2 trays, 2,000 sheets each (A4); 52 gsm Bond to 216 gsm Cover (16 lb to 80 lb)
- Optional Oversize High Capacity Feeder: 1 Tray; 2,000 sheets (B5 to SRA3); 52 gsm to 253 gsm enables use of more approved coated stocks*
- Coated Stocks: Refer to the Fuji Xerox 4112/4127 Copier/Printer. Customer Expectation Document for approved Fuji Xerox coated stocks

Standard finisher

- Multi position single or dual 100 sheet variable length stapling
- 2 and 4 hole punch (optional 3 hole punch)
- Built in bi-directional de-curler
- Stacker capacity of 3,000 sheets (80 gsm)
 - Top tray capacity of 500 sheets (80 gsm)

Optional booklet maker finisher

- Includes features of the Standard Finisher plus:
- Automatically creates booklets of up to 25 pages (100 imaged sides with saddle stitching)
- Stacker capacity of 2,000 sheets (80 gsm)
 - Top tray capacity of 500 sheets (80 gsm)
- Creates booklets from SRA3, A3 and A4

Optional high capacity stacker with stacker cart

- 5,000-sheet offsetting output stack tray; B5 LEF to SRA3
- 500-sheet top tray
- Includes one stacker cart; additional carts available

Optional folder

- C-fold and Z-fold of A4
- Print on inside or outside of folded paper
- Folds A3 Z-fold for insertion into A4 document sets (engineering Z-fold)

Data security

- Secure Print
- Image Overwrite up to 3 times
- Data Encryption (SSL/TLS)

Electrical requirements**

- Print Engine:
- 220–240 VAC, 60/50 Hz, 15 amp service
- Optional Feeding/Finishing:
- Each module requires 100 – 240 VAC, 60/50 Hz. power

Print controllers

Integrated Copy/Print Server

Hardware Specifications

- 80 GB Hard disk drive, 768 MB RAM
- 10.4" colour, touch screen flat panel display
- Ethernet interface (10 MBTX/sec and 100 MBTX/sec)

Client Environments Supported

- Windows® 98/ME/2000/XP and NT 4.0, Vista
- Macintosh® OS 8.0x/8.5x/9.0x/10.1/10.2/10.3, 10.3, 10.3.9 – 10.4.8
- IntelMac 10.4.4 – 10.4.8

PDLs and Data Formats

- Adobe® PostScript® Level 3
- PDF
- PCL 5e and 6
- TIFF
- HPGL, HPGL2

Connectivity

Native network environments

- TCP/IP, SNMP, SMB, Novell® IPX, AppleTalk®, IPP
- Copy and Save to mailbox/folders
- Preview documents from mailbox before printing
- Mailbox backup and restore

Optional FreeFlow Print Server

Hardware Specifications

- SUN® Ultra 20 M2 platform
- 2 GB memory
- 160 GB, SATA Hard Drive
- DVD Writer/CD Writer
- Colour flat-panel monitor, keyboard and mouse

Client Environments Supported

- Windows® 2000 SP4/XP SP2/Server 2003, Vista
- Macintosh® OSX (10.3 or later)

Options

- FreeFlow Print Server Stand
- FreeFlow VI Interpreter (VIPP®)
- LCDS enablement
- IPDS enablement
- Disk Overwrite

Connectivity

Native network environments

- TCP/IP, SNMP, Novell® IPX, AppleTalk®, IPP
